South of England's Dentist of the Year

Neel Tank, owner of Imogen Dental in Benson's and Kingsclere's High Street, has just bucked the bad-news 2020 trend, and been named as the South of England's Dentist of the Year in the recently-announced Dental Awards.

The prestigious award was presented virtually this year, along with the accolade: "An exceptional dental practitioner, Neel goes far beyond his role as Principal Dentist, creating an environment where caring for patients, and learning and improvement are second nature. He is the driving force behind everything the practice achieves and continues to achieve".

Neel commented "An extremely proud, humble and momentous day of my career. It comes with many years of hard work, sacrifice, and dedication. Thank you to the amazing support from my whole family, my team and patients. I have finally reached the top of the mountain that I have been climbing for many years. The blood, sweat and tears were all worth it!!"

Highly Commended awards were also honoured to Norma Watson for Practice Manager of the year (UK), Dental team and practice of the year (South England) 2020.

Both Neel and the Imogen Dental Team have already achieved a great deal so far, not least their very recent total transformation of the Imogen Dental premises to comply with the new Covid-19 rules and regulations. But

even before this latest award, Imogen Dental had earned many, many plaudits for both their dental expertise and their charity work.

Imogen Dental Benson (and the sister practice in Kingsclere) were named Leading Dental Practices of the Year 2020 (Oxfordshire and Berkshire) by GHP Global Magazine; The practice was named Dental Practice of the Year 2019; and both practices were jointly named Best Team of the Year 2017 and 2018. For the last three years, both Dr Tank and his team have been winners in many categories at all the major Dentistry Award Ceremonies. And last, but definitely not least – the British Dental Association has granted both Imogen Dental Benson and Kingsclere their Good Practice Award each year from 2011 to date.

Imogen Dental Benson is now well-established in the High Street and has very recently expanded even further to accommodate the growing number of patients, adding an additional surgery room plus accommodation for holistic treatments (Imogen Serenity).

Over the past 15 years Neel Tank has become a family man, has had chairman roles in the local British Dental Association committees, and has become a vital part of the village and village life. His colleagues, team and patients all agree that this year's award as Dentist of the Year could not have been won by a more professional or caring practitioner.
